The allies in the first two and a half years of the war have built up a most elaborate system to allow only enough supplies imported to countries contiguous to Germany to maintain their normal stocks.

A report on trading with the enemy was presented by Sir Eric Drummond, Solicitor Lester H. Woolsey of the State department and F. W. Halsted, chief of the customs bureau. The Scandinavian countries have shown alarm over a possible extension of the rationing system and have pointed out that any further restriction will vitally endanger their economic safety. Several nations it is understood will send commissioners to this country to secure as generous arthis country to secure as generous arrangements as possible, the Sewedish delegate, Herman L. F. Will Triple Guard Strength.

State authorities were authorized today to fill present regiments or today to fill present regiments or other units up to full war strength, making a force of approximately 529, 954 men and 9,847 officers. No new National Guard organization will be accepted by the federal government until this is done and reserve battalions for each regiment organized.

The result will be virtually to triple the present strength of the guard, but teports to the department show heavy recruiting in all states.

The department announced all the distribution by military departments of the sixteen divisions of the new selective draft army and the sixteen Na-

Behind this force a second call on the selective forres, provided for in the bill, will add sixteen additional divisions.

Give Out Preliminary Outline.

State and municipal officials al-ready have been given a preliminary outline of the work that will fall to them in carrying our registration of the new armies.

General Crowder, who will super-vise the work, believes full co-opera-tion and quick action can be relied upon.

Allowances must be made when the military census of men between the specified ages has been completed for probable variation from census bureau estimates as to the total number of persons in this classification. It is regarded as unlikely that the registration will show the exact 10,200,000 persons lishle fixed by the consus espersons liable fixed by the census es-

Neither emperor, how-ever, ever forgave Count Witte.

At the beginning of the war Count Witte communicated the facts to B. Glinsky, editor of the Messager Hisorique. Will Deposit Liberty Loan.

Washington, May 18.—Proceeds of the Liberty loan, the Treasury department announced today, will be deposited in banks and trust companies which have qualified as depositories which forward subscriptions of at least \$100,000.

Where possible, other financial institutions forwarding a less amount of subscriptions will be treated similarly later. The government will receive 2 per cent interest.

The government's apparent intention to advance approximately \$1,000,000,000 to the allies before July 1—\$650,000,000 of which has already been paid, is reflected by a request of Secretary McAdoo to the banks to take as large amounts of treasury certificates as possible.
